

General Guidance on using the Surrey site

Surrey Practice Learning Platform

www.surreyplp.co.uk

Once you have logged on the home page you can review a portfolio in a number of ways.

To open up the portfolio select

Main menu - click to expand

The full menu for your portfolio for that year and if you are a paramedic for the modules you are working on will appear. When you select each section the relevant form/content will appear. Please note that what you are able to do with that content will change depending on your role. This usually means that when you are on a page and you are not able to edit it either the student or mentor needs to take an action.

Main menu - click to expand

- Child Nursing - Course Details
- Placement
- Manage Mentors and Tutors
- Reviews
- Action Plan
- Record of Attendance
- Visits and short placements
- Clinical Grading Tool
- Essential Skills Cluster
- Snapshot Assessment
- Service User, Family Carers Experience
- Reflection: Service User, Family Carers Experience
- End of Year Checklist
- Field Related Learning Experiences

The portfolio will remind you if there is an action that you must take.

Create an Initial Review

Click the button below to create Initial Review

[Start Initial Review](#)

The purpose of the colour scheme is to provide a view of what has been completed; what is in progress and what needs attention.

 - complete  - in progress  - requires attention

If you want to review your portfolio for the whole year please select the relevant button below

Child Nursing	Year 1	Year 2	Year 3
